## **Introducing the newest member to the ParkPlus family.... The 'MyParking' app for Android!**

The Calgary Parking Authority is excited to launch the MyParking app for Android. Gone are the days of our customers reminding us that “there’s an app for iPhone...why isn’t there one for Android.”

This app is a part of the overall ParkPlus account management overhaul that includes the much anticipated ability to view your account balance as well as load additional funds onto your account from a mobile device.

“Our cell phone customers have been asking us to build a MyParking app for Android for what seems like forever,” says Calgary Parking Authority General Manager Mike Derbyshire. “Well, the time has come - it’s here and we know that our Android users will absolutely love it. They will notice the improvements immediately.”

Other features included in the MyParking app include the ability to:

- Start or Stop parking sessions in ParkPlus zones; no cards or coins required
- Only pay for the time you’ve actually parked by deactivating your session
- Manage licence plates associated with your ParkPlus account
- Manage your low balance notification
- Retrieve account activity reports about your monthly parking transactions
- Access real-time parkade availability

The MyParking app for Android is now available as a free download from the Google Play Store or it can be accessed via our new ParkPlus mobile payment landing page at [m.parkplus.ca](http://m.parkplus.ca) where customers, using any device, can immediately access ParkPlus and the Virtual Pay Machine.

### **About Us**

The Calgary Parking Authority is a proud partner of The City of Calgary and is committed to managing publicly-owned on- and off-street parking facilities on The City’s behalf. In addition, CPA manages the municipal parking enforcement program and provides parking advisory services.

Every dollar CPA collects that exceeds its operational costs is returned to The City of Calgary. Last year CPA returned \$32M to the municipal general revenue program which funds projects such as recreation centres and pathways and provides funding for community services and public safety programs. The CPA operates without using any municipal tax revenues.
